

# Spring Break Intensive Programs

March 19 - March 29 2018 | 12PM - 3PM

Week 1: \$440 / 5 classes | Week 2: \$356 / 4 classes

📞 604-221-2363 to Register

## English Grade 12 Provincial Prep Bootcamp (2-week)

The Grade 12 BC provincial exam is challenging as it requires students to not only read multiple texts but to deconstruct them and discuss literary elements. The test requires an extensive understanding of core English Language Arts terms and requirements. Learning how to successfully work within rigorous time constraints and to successfully write about the given texts is the goal of the grade twelve Provincial Preparation course.

## Intensive Academic Writing Camp (Non ESL Students)

The Academic Writing program has been designed for students who wish to learn, and to polish their writing skills. This class explores academic writing formats including exposition, narration, description, and persuasion. Students will leave the program with a deeper appreciation of the craft of writing.

## Learning to Read (Kindergarten - Grade 2)

The Learning to Read program has been designed for early readers. Students will learn and/or practice major phonics rules, and read a variety of story books associated with the phonics conventions. The students will work through one mini-book a day that the students keep to add to their ever expanding library. The main objective of the program is to cultivate a love for reading.

## English Immersion Program Level 1 & 2 (ESL Students)

**Level 1: Beginner ESL students | Level 2: Intermediate to Advanced ESL students**

The English Immersion programs have been designed with the understanding that students learn best within immersion environments; rather, than level adjusted ESL classes. Within the immersion environment, the students are invited to participate in age and grade appropriate tasks despite their English Language Learning level.

Each class is 3 hours long. During the first 2 hours of every class, students are introduced to the language of English Language Arts, the writing formats, and a variety of texts as well as the themes common to the subject. Following each lecture, students will have plenty of time to practice the new writing format. The last hour of each class focuses on solidifying grammar rules and building vocabulary.

By the end of this program, students will complete a portfolio with 4-5 essays. This rigorous learning environment cultivates higher engagement, and allows students to practise and to develop the English Language Arts skills necessary within their primary and secondary schools.
